PROGRAMME DETAILS

Dates	4th - 9th July 2021 (9:00 am - 3:00 pm)
Recommended Age Group	10 - 14 years old
Fees	RM 4,000 (10% early bird discount before 4th June)
Format	<ul style="list-style-type: none">▶ Virtual (Zoom)▶ Intensive reading, speaking, listening, and writing exercises curated in a fun, and easy teaching style▶ Immersive teaching style to ensure students get a holistic experience while improving on their mastery of the English language

Who is this programme for?

Recommended for students with an English as a Second Language background, the virtual programme blends the use of textbook-based work, and immersive practical activities under the expert guidance of Epsom's teaching staff to enhance and accelerate learning.

Students are assessed at the onset of the programme and will be given individualised learning plans based on their listening, speaking, reading, and writing abilities. Participants will have their progress tracked throughout the week and will see significant improvement from the initial benchmark assessment.

INTENSIVE ENGLISH SUMMER CAMP

AREAS OF EMPHASIS

Listening & Speaking

Fun activities such as spelling games, public speaking, philosophy discussions, and effective communication games that are geared towards enhancing the abilities of the students to be able to grasp how the English language sounds when it comes to the phonetics of different words, and being able to ensure that students are able to overcome their fears of trying to speak in a language that they are yet to master.

Comprehensive Reading

Building reading habits from an early age is important, but many young students find it difficult. We have put together a comprehensive reading programme that is light, and fun to ensure students are able to maintain focus and enjoy reading English texts, and books.

Creative & Academic Writing

University applications and English exams always require either a creative or academic writing that students will need to brush up on. Easy essays, postcards, letters, and story-writing will allow students to be able to grasp what is to be expected of them when applying for universities or sitting for examinations.

Fun & Games

A series of sessions targeted at providing an opportunity for self-expression, collaboration and developing creativity and imagination with an emphasis on the English language.

Afternoon Projects

Every afternoon, each student will get the opportunity to pick an elective project that they can work on - this session is geared towards real-life interactions like creating blogs, portfolios, resumes, and videos.

Feedback Sessions

At the end of the programme, parents will get to have a dedicated feedback session with each teacher on how their child can improve their English for the next upcoming weeks to ensure they are able to self-learn while evaluating gaps that need to be overcome.

Epsom University Admissions Webinar

Applying to universities can be challenging and a lot of confusion. At Epsom, we have put together a programme that focuses on the different things that a child should be doing in order to boost their resumes and get a real-life boost with their skillsets. Join Kate Carden-Brown, Epsom's Director of Higher Education to learn more about university applications.

Barcelona

DIRECTOR'S MESSAGE

The most beautiful thing I've experienced as a teacher over the past decade has been watching students aspire to reach their full potential and transform into confident and articulate young leaders. I've been privileged to teach students from all walks of life and it's a joy to see them master the English language and pursue their dreams. During my time as an English teacher at Epsom College, I've coordinated the English Language Holiday Programmes, coached the World Scholar's Cup debate teams, and co-created intensive programmes for IELTS examinations where we were able to improve student's scores by up to 1.5 levels in one week. I've specialised in teaching English to students from China, South Korea, and Japan during my time at Epsom, and have also previously taught English in Barcelona. I'm confident that we can help you take your English language abilities to the next level with this programme.

I look forward to meeting all of you at the upcoming Virtual English Programme and being part of your journey to English excellence.

EPSOM's EAL SUPPORT

At Epsom, we believe that every child is different, and has specific requirements to ensure they're able to excel. We focus on nurturing independent thinkers and creative problem solvers, equipping our students with the life and academic skills required to succeed in today's increasingly competitive global landscape.

Every student that comes in with minimal or no English is aided with additional English lessons that are personalised to ensure they are able to cope with their English mastery journey. Through this intensive method, all of our EAL students are able to complete their IGCSE & A-Level programmes and compete academically with the rest of their peers.

Our full-boarding programme offers the best pastoral care accessible throughout the year with separate sessions dedicated to full-time boarders that are on-site with mall-visits, excursion programmes, and summer camps to ensure students are able to make the most of what Epsom has to offer.
