Epsom International School is a very special place to live and learn.

Epsom International School in Malaysia is the only sister school of Epsom College in the UK, voted one of the UK's top boarding schools by The Telegraph with a track record of close to 200 years of academic excellence. Our individual approach is designed to ensure every pupil thrives, no matter their talents or abilities - our close knit and supportive community has helped EAL students with limited English abilities go on to pursue degrees at top global universities.

As a boarding school, Epsom is able to foster and develop closer bonds with our students, acting more as mentors than as teachers. We prescribe to a positive and ambitious ethos that provides students with the confidence to try their very best, to make mistakes and to learn from them. Epsom's British Summer Camp challenges students to be creative and critical thinkers and to 'Be The Change'.
